11 Choose the USDT **network** you are using for payment

PS!! VERY IMPORTANT!!

You must choose the correct **coin** and **network** to send funds, or your funds will get lost forever.

Eg1. A crypto coin is similar to a currency. We are only using the **USDT** coin.

Eg2.Networks (ERC20 & Tron/TRC20) are similar to using different banks >> do

not choose the incorrect bank when transferring funds.

- 1. Make sure you are sending the <u>USDT</u> coin. Then decide which network you are making use of.
- 2. Rather use ERC20 network if you are unsure. It is more available than TRX20
- 3. Do not use the TRON coin (it is not the same as the tron/TRC20 network)

13 Transfer USDT

The next page will ask you to transfer USDT to the CoinPayments wallet address. 1. Simply open your favourite Crypto Exchange app on your smartphone. Go to the USDT wallet you want to transfer funds from (either ERC20 or TRC20 wallet).

2. a. Find the "send funds" or "withdraw funds" button on the Crypto Exchange. It should have the option to "scan a QR code" Then scan the QR code you see on your screen.

3. b. Alternatively you can copy/ paste the address below the QR code and manually send funds from your Crypto exchange to the wallet address below the QR code. -

4. Once the funds are transferred, CoinPayments will receive various validations from the blockchain to confirm your payment. This might take a couple of minutes to process before CoinPayments screen will auto refresh as indicated on the next page.

PS: While you are waiting for the payment validation, join our **Telegram Channel** here: <u>https://t.me/+upBam-PjjaNiYzM0</u> and like our **Facebook Page** here: <u>https://www.facebook.com/dreamzcompetitions</u>

You will find valuable information and very useful resources there.

14 The next page will take **UP TO 10 MINUTES** to auto update.

JUST WAIT until you see the "PAID" message

Click "CONTINUE TO SELLER'S STORE" button
